

## **About Us**

**Rishabh** Engineering Company is a leading Power Generator manufacturer with a portfolio that includes a wide range of **Diesel Generators, Gas Generators, Mobile Lighting Towers, Fire Hydrant Engine driven Pumps, Engines, Control Panels, Automatic Transfer Switches, Acoustic Enclosures, Servo's, Transformers**. Our marque can be found in and outside the schools, hospitals, shopping complexes, industries, offices and residencies across the country.

A GOEM of TATA Motors | Kohler | Greaves | Stamford, Rishabh Engineering Company is among the India's leading manufacturers of Generators

We believe in **POWER WITH CARE** by offering innovative power solutions that are in line with customers' aspirations. We are aspiring to be India's leading & the largest Generator manufacturer, and we continue to take the lead in shaping the Indian Power Generator Ecosystem, with the introduction of leading-edge solutions packaged for power performances and user ease at the lowest life-cycle costs. Our new product line of generators and mobile lighting towers are based on **Impact Design** and offer a superior blend of performance, sturdiness and connectivity.

## **focus**

Our focus is on **POWER WITH CARE** and our pipeline of tech-enabled products keeps us at the forefront of the market. We have identified four key mobility drivers that will lead us into the future –

- Modular Architecture
- Complexity reduction in Manufacturing
- Connected generators
- Lower total cost of ownership.

**Our Mission** - across our organization – is to be passionate in anticipating future technologies and providing the best power solutions and experiences that excite our customers.

## **Mission Statement**

**We innovate power solutions with passion to enhance the quality of life**

## **Our Vision**

Our Vision statement includes the sense of integrity and innovation. We are committed to our successors by living a legacy of prosperous and honorable organization capable of environment friendly products with excellent quality, continuous improvements and customer satisfaction.

As a high-performance organization, we should, by FY2019

- To increase our current production by 3 times.
- Achieving sustainable financial performance.
- Delivering exciting innovation

## **Leadership**

Our management, motivates and guides the organization to greater success by defining new and exciting horizons to scale. Senior leadership, comprising eminent industry experts who bring a wealth of knowledge, works to achieve the vision and mission of the organization by setting high standards of performance and excellence.

## **Chairman's Message**

If someone wants to move fast, he should move alone, and if someone wants to move far, move together.  
Think Big | Think Team

We aim at nurturing our relationships not just within our team but our extended team as well that is our channel partners as well as our end customers.

## **Our Values**

- Trust
- Quality
- Excellence
- Innovation
- Teamwork
- Responsibility
- Integrity
- Gratitude

## **Technology & Innovation**

The foundation of Rishabh Engineering Company's' growth over the last 20 years is a deep understanding of economic stimuli and customer needs, and the ability to translate them into customer-desired offerings through cutting-edge technologies.

Innovation is deeply embedded in our DNA, and is demonstrated through our path-breaking products **Diesel Generators, Gas Generators, Mobile Lighting Towers, Fire Fighting Engine driven Pumps, Engines, Control Panels, Automatic Transfer Switches, Acoustic Enclosures, Servo's, Transformers.** etc.

As a result of extensive R&D our Generators & Mobile Lighting towers are soon going to be IOT enabled and are going to be connected devices. They'll become intelligent and could communicate with each other.

## **Quality**

The With quality comes efficiency. At  **Rishabh**, we ensure focused quality control across all our processes. Our quality management system (QMS) uses tools for continual improvement, defect prevention and reduction of variation and waste in the supply chain.

We have adopted a 'process approach' that focuses on outputs and customer satisfaction first; We try to adopt our products as the 'Voice of our Customer'. Our facilities are confirming to ISO 9001 standard & our organization is the 'Udyog Patra' receiver for its outstanding performance.

With our strict adherence to the highest standards in quality, we have established a culture of excellence across our operations. We use the best of the components and most of our raw material suppliers are global leaders in their fields.

## **Products from Engineering**

Our Products Include **Diesel Generators, Gas Generators, Mobile Lighting Towers, Fire Fighting Engine driven Pumps, Engines, Control Panels, Automatic Transfer Switches, Acoustic Enclosures, Servo's, Transformers** which are best in class and meet global standards to satisfy the demands and needs of our customers supported by one of the widest service networks.

## **Products form Information Technology**

- Face Recognition Attendance System with Artificial Intelligence.
- Artificial Intelligence enabled Access Control System
- Visitor Management System with Susp'ect alert through Artificial Intelligence

## **Services**

In order to provide efficient & Concentrated efforts on the below mentioned services our Leadership has created a separate entity within the R-Rishabh group called Arihant Machinery. The services being undertaken by us include:

- **Turnkey contract** for captive power station installation with Diesel Generators from "concept to the commissioning stage" which include Design, Manufacture, Supply, Erection, Testing,
- **Annual Maintenance Contract (AMC)**, Operation & Maintenance (O&M) & Commissioning with an auxiliary Mechanical and Electrical Sub System.
- **Rental Services** includes rental of Diesel Generators, Servo's, Transformers, Office IT Hardware, CCTV's, Air Conditioners, Office furniture etc.

## **Our Customer Support Team**

We have our own team of dedicated engineers with two decades of experience in the field of generators and other related products and have equally dedicated and experienced field staff to cater to site conditions and offer an excellent customer care service.

Besides we have an extensive leverage of TATA service network of 1500+ service dealers across the country. Additional factors like teamwork and training have greatly enhanced our present success and will form the cornerstone of our future efforts.

## **Value Added Services**

- Creating Value for our Customers by offering a comprehensive range of power products and services.
- Delivering first-class value that is known and sought after by our patrons.
- Constructing and maintaining long –team associations with customers.
- Security at every level of our operation and the protection of the environment.
- Constant uniqueness and the creation of opportunity.
- Morality and reliability.
- Point interaction and comprehensive accountability under one roof.
- Constant Endeavour's to save collapse losses of any company.
- Energy cost optimization.
- Conducting Energy & Audits.

## **Our Operations**

We operate on Pan India basis and are expanding our boundaries across globe. With operations already

in India, Nepal, Bangladesh, Sri Lanka, Saudi Arabia we are about to start our operations in many more countries.

We have a highly enthusiastic team dedicated towards customer satisfaction.

## Social Responsibility

Rishabh Engineering Company is committed to sustainable development, where business goes hand in hand with societal wellbeing and environmental consciousness. We are working on implementing Kaizen to eliminate wastage and improve the utilization of resources and make our organization a better place to work. At the same time, we indulge in lot of activities like adopting poor for their studies & health etc.

## Our Partners
